“SCAN” “ERASE” “SORT” PAPER REUSE SYSTEM

-Toshiba Eco Printing system contributes to the Material-Cycle Society –

New Working Style for You

Toshiba paper reuse system enables the creation of an efficient office environment where information is not kept on hand as “paper” but is saved, shared and used as digital data, preventing the accumulation of “paper” and “information” in the office. That is to say, it achieves a no paper-stagnating office.

With its ability to erase print instantly, the e-STUDIO306LP/ RD30 multifunction printing system offers a new work style that will reduce the environmental impact, reduce paper costs and bring about changes in the way of working in the office.

ENVIRONMENTAL BENEFITS

- Reduces waste paper by 1/5 by reusing the paper over and over
 - Reduction of energy used to make paper by reduction of paper consumption
 - Reduction of water resource by 800 tons (Equivalent to two 25metre pool full of water)
- *estimate condition.

VALUE ADDED BENEFITS

- Reuse of the paper by erasing the prints (average recommendation of 5 times)
- Automatically scans and archives
- Automatically sorts reusable paper and non-reusable paper
- Writings with Pilots FriXion ball point pen can be scanned and erased.

PRODUCT HISTORY

TOSHIBA TEC has announced the world's first eco-friendly MFP system that can erase images and text on the prints with integrated scan-to-network function, available in Japan from February 2013 to be followed by a worldwide roll out. A worldwide model is scheduled to be available in May.
